

The City of Elk Grove is currently accepting applications for

Traffic Engineering Manager

\$116,714.00 - \$156,422.00 annually + excellent benefits

The Public Works department is currently seeking highly motivated, problem solving, and well-organized candidates to be our next Traffic Engineering Manager (Public Works Division Manager – Engineering). The Traffic Engineering Manager manages the traffic engineering division and associated programs. The Manager is responsible for ensuring that program goals, objectives, policies, and processes are being formulated, implemented, and carried out with focus on efficiency and innovation. The Manager performs advanced and complex technical engineering work, provides technical direction and solutions related to the program services and activities, and ensures staff and program compliance with applicable laws, regulations, policies, and procedures. Staying abreast of new trends, innovations and relevant emerging products is a key role of the Traffic Engineering Manager. The Traffic Engineering Manager reports directly to the Deputy Director of Public Works-Engineering and supervises three city staff and multiple consultant contracts.

The City of Elk Grove is a well-run, responsible public agency with a welcoming and engaged workforce committed to diversity, equity, and inclusion. The Public Works Department’s success is strongly rooted in our commitment to teamwork, efficiency, and innovation. Whether you are ready to take that next step your career or are looking for something new, this position provides you with the opportunity to help guide the delivery of some of the region’s biggest and most exciting projects.
